Bull markets versus Bear markets. To pursue the greater return potential of stocks, it makes more sense to stay committed to an investment plan rather than try to guess the best time to be in the market. Over the past 69 years, bull markets have lasted longer (46 months on average) than bear markets (13 months on average) and have

### **Bull markets versus Bear markets - Putnam Investments**

The terms "bear" and "bull" are thought to derive from the way in which each animal attacks its opponents. That is, a bull will thrust its horns up into the air, while a bear will swipe down.

### **Where Did the Bull and Bear Market Get Their Names?**

Bulls, Bears and a Croupier unfolding. Once the bear goes back into hibernation, there will be a multi-year rally that will deliver enormous returns. You can never predict the exact moment a market turns, because you will only be able to declare it in hindsight, but it is crucial that you start your
