

classification of knowledge in pdf

APQC's Process Classification Framework® (PCF) is a taxonomy of business processes that allows organizations to objectively track and compare their performance internally and externally with organizations from any industry. It also forms the basis for a variety of projects related to business ...

APQC Process Classification Framework (PCF) â€“ Cross

Medical classification, or medical coding, is the process of transforming descriptions of medical diagnoses and procedures into universal medical code numbers. The diagnoses and procedures are usually taken from a variety of sources within the health care record, such as the transcription of the physician's notes, laboratory results, radiologic results, and other sources.

Medical classification - Wikipedia

Mathematics. Statistical classification, identifying to which of a set of categories a new observation belongs, on the basis of a training set of data; Mathematical classification, a collection of sets which can be unambiguously defined by a property that all its members share; Classification theorems in mathematics; Attribute-value system, a basic knowledge representation framework
