and Budgeting the Evaluation, adds a new step in the evaluation process and highlights the central role of planning in an evaluation. The most significant change was found in the final chapter of the book, "Strategies for Implementing the Evaluation in Organizations." This chapter includes the addition of a section on building evalua-

evaluation " i.e. planning, conducting the evaluation, reporting, and managing and communicating outcomes " and provides operational guidance and templates to assist those responsible for evaluations to comply with the Organization's evaluation policy. The handbook is divided into two parts:

Evaluation Practice Handbook - World Health Organization

Types and Uses of Evaluation In order to plan the evaluation in accord with the most appropriate evaluation method, it is necessary to understand the difference between evaluation types. There are a variety of evaluation designs, and the type of evaluation should match the development level of the program or program activity appropriately.

Types of Evaluation

context, it is imperative for those in the field to focus on evaluation of training and development and properly demonstrate and communicate to management that training efforts are making worthwhile contribution. II. Evaluation: A Comprehensive Approach Evaluation of training and development is the most essential aspect of training programme.

Evaluation of Training and Development: An Analysis of

Evaluation of training effectiveness is the measurement of improvement in the employee's knowledge, skill and behavioral pattern within the organization as a result of training program. This measurement help to match the cost incurred in the design and implementation of training with the associated benefits.
