### **Faster Switching from Standard Couplers - Vishay**

Gravitational time dilation is a form of time dilation, an actual difference of elapsed time between two events as measured by observers situated at varying distances from a gravitating mass. The higher the gravitational potential (the farther the clock is from the source of gravitation), the faster time passes. Albert Einstein originally predicted this effect in his theory of relativity and it ...

The 100 metres, or 100 metre dash, is a sprint race in track and field competitions. The shortest common outdoor running distance, it is one of the most popular and prestigious events in the sport of athletics. It has been contested at the Summer Olympics since 1896 for men and since 1928 for women.

2 | EQUITY Time Horizon One of the major considerations when embarking on the journey to generate asset class return expectations is the consideration of time horizon. Because the focus here is on generating capital market expectations for strategic asset allocation, and not tactical overlays, a significantly long time horizon of 10 years was selected.

In last month's Report, we noted that since the middle of the year oil supply had increased sharply, with gains in the Middle East, Russia and the United States more than compensating for falls in production in Iran, Venezuela and elsewhere. New data show that the pace has accelerated, and this higher output, in combination with Iranian sanctions waivers issued by the US and steady demand ...
