

firing line pdf

A quick-firing gun (in U.S. parlance, 'rapid-firing') is an artillery piece, typically a gun or howitzer, which has several characteristics which taken together mean the weapon can fire at a fast rate. Quick-firing was introduced worldwide in the 1880s and 1890s and had a marked impact on war both on land and at sea.

Quick-firing gun - Wikipedia

A shooting range, firing range or gun range is a specialized facility designed for firearms qualifications, training or practice. Shooting ranges are typically operated by military or law enforcement agencies, though the majority of ranges are privately-owned and cater to recreational shooters.
