You are entering a rapidly growing and exciting field that allows you to build a strong background for many career opportunities such as dietetics, nutrition research, medicine, public health, or the food industry. The Department of Nutrition and Food Science offers

Nutritional Sciences

Food appearance or presentation strongly influences which foods you choose to eat. Eye appeal is the purpose of food presentation, whether the food is hot or cold. It is especially important for cold foods because they lack the come-on of an appetizing aroma. Just the sight of something delicious to eat can start your digestive juices flowing.

Fundamentals of Nutrition and Foods COPYRIGHTED MATERIAL

calculator, conversion tables for cooking and a guide to food hygiene procedure, as well as a list of key contacts in the fields of nutrition, health and food production. Thanks are due to Emma Parker, Assoc. Nutr., for her valuable help and advice during the production of this book.
