A third-person pronoun is a pronoun that refers to an entity other than the speaker or listener. The English pronouns he and she are third-person personal pronouns specific to the gender of the person (not to be confused with grammatical gender). The English pronoun they is an epicene (gender-neutral) third-person pronoun that can refer to plural antecedents of any gender and, informally, to a ...

Gender role is the idea that people should behave in certain ways because of their gender. As an example, in a hunter-gatherer economy, men usually do more hunting and women do more gathering. In a money economy, it was traditionally the role of the man to earn money, and the role of the woman to educate the children.
