Definitions, connotations, and etymology. According to the Oxford English Dictionary (OED), matriarchy is a "form of social organization in which the mother or oldest female is the head of the family, and descent and relationship are reckoned through the female line; government or rule by a woman or women." A popular definition, according to James Peoples and Garrick Bailey, is "female dominance".

The class roster feature in powerschool is a great way to get class information out of the system in a nice printable format. However... try explaining to your office staff that after they took the time figuring out all the parameters, field names, and column widths, to create the roster, they cannot save it for future use!

I think the fundamental problem is the conception of how sexual harassment works. The prototypical model is the idea that you have a harasser-type male, representing some non-zero percentage of the population, who will satiate himself upon a set number of victims, with various levels of "need" in terms of number of victims and intensity of harassment.

Theatremonkey Opinion: (Second visit, 19th September 2016) Some actors, including Mr Henry, have now

Reader's Comments ( )Author's Note: I've decided to post the first three chapters of the Kennel Master as I'm pretty happy with them and I want to test to water a little. Like other stories I'm working on, it's extreme and very dark in flavour; none of the main characters are very likeable and what goes on is uncompromising, brutal and very non-consensual.
