human engineering in stereoscopic pdf

Stereoscopy (also called stereoscopies, or stereo imaging) is a technique for creating or enhancing the illusion of depth in an image by means of stereopsis for binocular vision. The word stereoscopy derives from Greek, Modern ἵψος, ἵπιος (stereos), meaning 'firm, solid', and ἵψος (skopein), meaning 'to look, to see'. Any stereoscopic image is called a stereogram.

Stereoscopy - Wikipedia

Based on the principles of stereopsis, described by Sir Charles Wheatstone in the 1830s, stereoscopic technology provides a different image to the viewer's left and right eyes. The following are some of the technical details and methodologies employed in some of the more notable stereoscopic systems that have been developed.
