Blood Pressure Protocol has been created during a time in which general levels of fitness are constantly plummeting and obesity soaring. It is a comorbidity of obesity, as well as being related to the stress often associated with the modern world. Also known as hypertension, high blood pressure is experienced by a staggering one billion people globally.

In organic chemistry, the phenyl group or phenyl ring is a cyclic group of atoms with the formula C<sub>6</sub>H<sub>5</sub>. Phenyl groups are closely related to benzene and can be viewed as a benzene ring, minus a hydrogen, which may be replaced by some other element or compound to serve as a functional group. Phenyl groups have six carbon atoms bonded together in a hexagonal planar ring, five of which are ...
